Vol. 7 No. 16, Sept. 19-Oct. 2, 1981

The School of Dentistry will begin a year-long celebration of its 100th birthday on Thursday, October 1. Festivities will be held in Saunders Court beginning at 1 p.m. and will feature staff and faculty members dressed in attire of the 1880's, and a straw hat band.

Speakers at the celebration will include Chancellor Sooy, Cornelius Hopper, special assistant to President Saxon, and dental historian Berthal Hartman. Dean Greene will deliver the keynote address.

Historical artifacts tracing the school's history will be assembled in a showcase outside the administrative offices on the sixth floor of the Medical Sciences building. To commemorate the centennial, Hartman has written a detailed history of the school from the time of its establishment in 1881 by S.W. Dennis, the first dean.

The School of Dentistry has changed dramatically since its beginnings as the dental department of UC. The first fund-raising effort in 1881 raised $510, which was used to furnish the clinic, lecture rooms, library and pathology museum. The first eight dental students attended classes with medical students at Toland Medical School on Stockton and Francisco Streets. Of the eight, seven already had been in practice from 7 to 22 years, one with an MD degree.

One hundred years later, the class of 1982 will have 132 members — 108 dentists and 24 hygienists.

TUESDAY 22

NEWS BRIEFS

A joint committee to advise UC President David S. Saxon on the selection of a new chancellor for UCSF will conduct a two-day site visit on campus, Monday and Tuesday, October 5 and 6. The purpose of the visit is to obtain suggestions on criteria for the screening of applicants and nominees. Francis A. Sooy, MD, announced in June that he plans to step down as chancellor as of July 1, 1982, in order to devote more time to his practice as a surgeon.

The joint committee is comprised of 16 members: five UC faculty, including three from UCSF, five Regents, two UCSF students, one UCSF alumnus, one UCSF staff employee and two ex-officio members. Members of the committee from UCSF are: faculty members Sarah E. Archer, chair of the screening committee, John S. Greenspan, Alexander R. Margulis, staff ememployee Noel Christian, students Amy Eisenfeld and Mark Perez, and alumnus Charles T. Carman.

Faculty who wish to send their suggestions on criteria or to meet with the committee should contact Kathy Schmidt, Academic Senate at extension 1308. Staff should contact Noel Christian at x2789; students Amy Eisenfeld, x2233 or Mark Perez, x 2010, and alumni, Charles Carman, x3945. Members of the campus community may also attend the open forum on Tuesday, October 6 in HSW 301 from 2:30 to 4:30 p.m.

Nominations for the UCSF Chancellor are also encouraged and should be submitted to President Saxon, 714 University Hall, Berkeley, by September 30, 1981.

The first Edythe B. Goldfield Memorial Lecture will be held on Wednesday, October 14, in Cole Hall, from 3 to 4 p.m. Louis V. Avioli, professor of Medicine at the Jewish Hospital of St. Louis, will talk on "Paget's Disease."

In addition Avioli will lecture on "Hypophosphatasia" during Medicine Grand Rounds that same day in Cole Hall from 10:30 a.m. to noon, and will give an informal seminar at the Metabolic Unit at the VAMC.

Goldfield was an assistant clinical professor of Medicine in the Metabolic Research Unit at the time of her death in 1979. Her research interests were in metabolic bone disease. A tree was planted in her memory at the Child Care/Study Center in May, 1980.

The Rosalind Russell Medical Research Center for Arthritis has named its first two Rosalind Russell Scholars, inaugurating a new program to support talented researchers early in their careers.

The recipients are H. Daniel Perez, MD, and B. Matija Peterlin, MD, both assistant professors of Medicine.

Perez is in the laboratory headed by Ira M. Goldstein, MD, at SFGH and directs the arthritis clinic at the hospital. His research has focused on why patients suffering from systemic lupus erythematosus are more susceptible to bacterial infections, as well as the role of white blood cells in acute inflammation. He has been with UCSF since 1980, and received his MD in his native Argentina.

Peterlin, a Harvard medical school graduate, started in September at Moffitt Hospital under the direction of John Stobo, MD. His research focuses on identifying the structure of a gene that may play a role in the development of rheumatoid arthritis. Stobo and his colleagues have shown that the gene appears to direct the immune system to attack and destroy collagen, the major protein in connective tissue.

Ephraim P. Engleman, MD, is director of the Arthritis Center.

UCSF's First Annual Campus Family Picnic will be held on Saturday, October 17 in Speedway Meadows, Golden Gate Park, 10 a.m. to 4 p.m. Everyone on campus is invited to attend and bring families and friends.

Games for all ages will be available including softball and volleyball tournaments, sack races, and prizes will be given for winning teams. There will be a hoedown, the UCSF Marching Band (which made its debut on Chauncey Leake Day in June) will entertain, and folk dancing and an Exploratorium exhibit also will be available.

One of the main events will be the "Chancellor's Cup Race," a five-kilometer (three-mile) event for seasoned runners and for adventurous others. All competitors will receive a free T-shirt, and winners will be awarded UCSF medallions and other prizes.

People are encouraged to bring picnic lunches, but hot dogs, soft drinks and beer will be sold.

If you would like to volunteer to observe the race, work on a food table, or help with the children's games, contact Thena Trygstad at extension 2401.

The new Milo E. Rowell Medical Education Building, which will serve as a home base for the School of Medicine's Fresno-Central San Joaquin Valley Medical Education Program, will be dedicated on Friday, October 2.

This event marks the culmination of David Werdegar's six years as associate dean of this program. Werdegar, MD, will return to UCSF as chair of the Division of Family and Community Medicine, with new responsibilities in administering the division's residency programs at SFGH, Santa Rosa, Salinas, Fort Ord and Fresno. Joseph Barbaccia, MD, has served as acting chair of the division since it was created in 1980 from the old Division of Ambulatory and Community Medicine.

Howard F. Corbus, MD, UCSF associate clinical professor of Medicine and Radiology, has been appointed acting associate dean/director of the Fresno program. Corbus previously served as assistant dean for the program's community hospital affairs.

Speaking at the dedication will be Robert Nimmo, head of the Veterans Administration, Mrs. Rowell, widow of the civic leader for which the building is named, and a host of other prominent leaders. A commemorative bronze plaque will be unveiled by Mrs. Rowell at the close of the ceremonies. There will be two days of scientific programs preceding the dedication.

The All-University Alumni Day will be held on Saturday, October 10, 8:30 a.m. to 4 p.m. on the Santa Barbara campus.

The program, called "Mindpower: America's Energy," will recognize the contributions of higher education to our society and will feature distinguished faculty members from UC's nine campuses. Nancy Wachter-Shikora, assistant professor, School of Nursing, will represent UCSF, talking on "Current Concepts of Pain."

Reservations must be received by Thursday, October 1. For further information contact UC-Santa Barbara Alumni Association, 805-961-2288 or 805-961-4126.

The final campus blood drive for 1981 will be held Monday, October 12 in the main lounge of Millberry Union 10 a.m. to 5 p.m., and on the mezzanine level of the School of Nursing Building 8 a.m. to 4 p.m.

Appointments can be made by contacting the Moffitt Blood Bank at x4013, or donors may visit either location at their convenience.

The ASUCSF is donating a brunch for two at the Alta Mira Hotel in Sausalito. To participate in the drawing, donors should deposit their blood donation reciepts in raffle boxes at the donation sites.

Campus blood drives are sponsored three times annually by the Irwin Memorial Blood Bank, and coordinated by the Campus Tours and Speakers Bureau.

Pulitzer Prize winner Douglas Hofsteider will present the Gordon Tomkins Memorial Lecture and Concert on Friday, October 16 in Cole Hall at 3 p.m. Hofsteider, professor of computer science at the University of Indiana, won the 1981 Pulitzer Prize for his book "Godel, Escher and Bach." Cellist Tanya Tomkins, daughter of the late molecular biologist, will perform with pianist Sylvia Jenkins. Hofsteider will give a scientific analysis of fugues with music played by the duo to illustrate his theme.

This marks the sixth year of honoring one of America's leading pioneer researchers in the study of hormone action. Tomkins, who died in 1975, was UCSF professor of biochemistry and vice chairman of the Department of Biochemistry and Biophysics. He also was an accomplished classical and jazz musician.

Several UCSF faculty members will be featured on KQED-TV, Channel 9, "Over Easy" during the next few months.

On Wednesday, Sept. 30, Mardi Horowitz, professor, Psychiatry, on "Parents and Children"; Monday, Oct. 5, Evelyn Gendel, director and lecturer, Human Sexuality Program, on "Keeping Fit" and again on Tuesday, Oct. 13 on "Sex"; Wednesday, Nov. 18, Peggy Huang, lecturer, Diabetes Clinic, on "Diabetes"; Monday, Nov. 23, Loma Flowers, assistant clinical professor, Psychiatry, on "Minority Aging"; Marion Nestle, associate dean, School of Medicine, on "Fat" on Friday, November 27, on "Food Additives," Thursday, December 17, and on "Good Nutrition," Tuesday, December 22.

"Over Easy" is shown at 7 p.m. The shows air again at 12:30 p.m. the next day.

A new "Cultural Awareness and Race Relations Education Program" (CARE), has begun at UCSF to address the pressing issue of improved understanding, communications and working relationships among multi-ethnic UCSF faculty, staff and students.

Director and designer of the program is Marie Simmons, who has taken a year's sabbatical leave from her position as director of the Hospitals and Clinics Social Work Department. It is funded for one year by Hospitals and Clinics and Development and Training.

A key part of the program will be the development of a "mentor" program. Minority employees who desire to acquire specific job skills will be assigned to an employee of a different ethnic group, who possesses the desired skill, who will serve as a mentor.

CARE also will provide films, lectures and seminars in an attempt to pre- and post-test the effect of these educational programs on attitudes. It also will provide consultation to managers.

For further information, or if you would like to volunteer as a CARE participant, contact Marie Simmons at extension 1655.

A new "Outpatient Pediatric Clinical Research Center" opened in early September on the second floor of the Ambulatory Care Building. The center, the first NIH supported outpatient clinical research center unit on this campus, was set up so that children in need of treatment and/or diagnosis available only through research can obtain it in an outpatient setting, thus eliminating the trauma and high cost of hospitalization.

The new center is an outgrowth of the Pediatric and Adult Inpatient Unit established in the early 1960's and is directed by Arthur Ammann. Dennis Styne is associate director, and Curtis Morris is director of the Adult Inpatient Unit. For further information contact research specialist Sandy Wishon at extension 2755.

SFGH held its first annual employee recognition program on September 18. The event honored approximately 150 city and university employees who had reached five years of service in 1981. A dinner prior to the awards ceremony was sponsored by SFGH Personnel Committee and the Volunteers of SFGH.

The UCSF/SFGH Nurse-Midwifery Service at SFGH will celebrate its sixth anniversary on Monday, September 21 in Room 6B34 at SFGH.

Films on birthing will be shown from 10:30 a.m. to 12:30 p.m. and again from 3 to 5 p.m. The campus community also is invited to participate in an informal panel discussion with women who have used the service at 12:30 p.m. In addition an information table will be set up outside the cafeteria from 9 a.m. to 5 p.m.

The VA Medical Center, S.F. will have two openings in its Substance Abuse Physician Fellowship Program, effective July 1, 1982. Fellows in this two-year program will receive training in the diagnosis and treatment of drug and alcohol abuse, as well as do research in the area of substance abuse. Participating facilities include SFGH, UCSF School of Medicine, LPPI, Haight Ashbury Clinic and the VA.

Applicants should have an active interest in substance abuse, be licensed to practice medicine and be board certified or eligible in psychiatry, neurology, internal medicine or family practice.

Applicants should send a letter of interest and curriculum vitae, along with five letters of recommendation to Nick Kanas, MD, program director, Substance Abuse Physician Fellowship Program, VA Medical Center, S.F. (116A). Application deadline is Tuesday, December 1, 1981. For further information call 221-4810, x587 or 588.

Applications are now being accepted for the 1981 White House Fellowships. Given annually, the fellowships go to as many as 19 young individuals from a wide range of occupations and backgrounds.

Fellows serve with pay as special assistants to Cabinet officers, the Vice President, or senior White House staff, and also take part in an extensive education program exposing them to all sectors of national government.

If you are a U.S. citizen, early in your chosen career, and not employed by the Federal Government, and would like to review the application, visit the Academic Vice Chancellor's Office, S 115, or call extension 1881 before November 13.
